Principal's Message

May I congratulate you on another job well done. This yearbook is another example of what can be done by hard work. The success or failure of any enterprise will be determined by the amount of effort applied. This will not only be true of your ventures in school but is also applicable to anything you might undertake in later life. Remember, you make your own good luck.

Sincerely,
H. A. Newman

In Honor

To you

William Gordon Atkins

A true friend and loyal classmate who would
have been a member of the Senior Class of 1962.

DEDICATED TO . . .

We, the Senior Class of 1962, wish to dedicate our yearbook to the TWIN OAKS sponsor, Mrs. Fern Agee, who has not only devoted her time to being a teacher, an efficient coach, and secretary but a true friend and capable leader. Her sincerity and interest in the school has won for her the love and admiration of each and every student.

As a coach . . .

As a secretary . . .

Senior Class Prophecy

It is now the year of 1972. We are on our way to Paris, France. Because of a practice air raid our four engine, private plane has been grounded in Chicago. Upon landing, the first people we see are two of our old classmates, Stuart Baliles and Jackie Rorrer, who are campaigning against each other for Governor of Illinois.

After listening to a few of their speeches, we began to mingle in the crowd. We met Mr. and Mrs. Sherman Thomas, the former Betty Roberson, who took us on a tour of Chicago in Bernice Rorrer's new Taxi Cab.

First, we visited the medical center where Melvin Scott is the head doctor and Margaret Foley is his assistant nurse. They told us that Ralph Hylton now owned his own super market in California. So he can go to work anytime he wishes without being late.

We just happened to have a flat tire in front of Ralph Pilson's garage. While waiting for him to change the tire we noticed in the local paper published by James Harris and company, that Nancy Wright had been crowned Queen for a Day by Paul Thomas, host of the program.

We ended our tour of Chicago by visiting Maynard Wood's Tear-It-Up-and-Never-Fix-It Shop.

After boarding our plane we had to wait for our pilot, Kenneth Conner, who was talking to Norman Rockwell's new assistant, Fern Belcher.

While in Paris we enjoyed a concert under the direction of Elmo Chaney and star pianist, Jeannie Thomas.

Before leaving Paris we placed a long-distance call to our oil-well friend, Davis McAlexander, in Texas. He told us that since we had left on our tour of the world Edward Pilson had bought him a large farm in Kansas and Ray Foley had been awarded a gold medal for "Squirrel Hunter of the Year."

At the end of our plane trip we were greeted by Shirlee Foley and Lena Agee who were getting ready to take a trip to Hollywood.

After all of this traveling to see most of our classmates, there isn't much money left from the million dollars we had received from Mr. Anthony.

THE MOON... and beyond!

Bright, new horizons await today's students . . . new technologies . . . new medicines . . . even the moon and whatever lies beyond.

How far today's students go in this space age depends partly on their imagination but primarily on their training. Conquering new horizons will demand more of today's graduates — more knowledge, more skills, more training and more specialization.

Our Free Enterprise system, with its high living standards, gives everyone an opportunity to "shoot for the moon" in any field. Whether or not our target is reached depends on how well trained we are to launch ourselves.
